

I want to oppose the National Association of Broadcasters being able to limit what I am able to hear. I pay for and the public frequencies belong to the people not some associations or political influential corporations. I personally benefit from listening to XM Satellite Radio and its traffic and weather enable me to be better informed. I respectfully urge the FCC to "reject" the Nat. Assoc. of Broadcasters (NAB Petition 04-160 ) I support and believe the public deserves the kind of programming the satellite radio systems can provide to us the American Citizens.
